NAME: JHASHYNE KAYE C. LANDRITO 1BSINFOSYS-B

WEBSITE GOALS:

1.) To provide essential information through the website like the location, operating hours, contact information, and reservation option.

2.) Showcase the product offering

3.) Highlight special event and promotion

4.) Offer online ordering or delivery option

5.) Engage with customers

WEBSITE PLAN

- Design and layout: I be using warm and inviting colors, mouth-watering visuals of our donut, and user friendly layout.
- Menu and pricing: Create an online menu that showcase delicious donut flavor, toppings, and pricing. Make it easy for the customer to browse and choose their favorites choice of flavor.
- About us: Creating "About Us" section to introduce our mini donut. Sharing our story, values, and unique aspects.

W3SCHOOL LEARNING:

- Using HTML to text formatting, structure content, inserting images, and form.
- Using CSS to styling text, styling background, layout and positioning.
- Using JAVASCRIPT to provides powerful set of tools to access and modify elements on a web page.

CONCLUSION:

This website entitled Mini Donuts will surely provide website's user interface like user-friendly and intuitive, making th easy for users to navigate and find relevant information. The menu section provides a clear breakdown of available flavors, toppings, and special offers to our dear customers.

Overall, the mini donut website successfully combines functionality, visual appeal, and informative content to create a compelling online platform for donut enthusiasts.
